SHAIK MOHAMMAD HAFRUDDIN

Chennai, TamilNadu, India-601206 | +91 7702044450 | skhafruddin33@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven AI & ML undergraduate specializing in Agentic AI workflows, Generative AI (LLMs, RAG), and Full-Stack Engineering. Proven experience engineering production-grade REST APIs, stateful multi-agent systems using LangGraph and LangChain, and responsive modern web architectures. Strong foundation in algorithmic problem-solving with 350+ LeetCode problems solved.

TECHNICAL SKILLS

Programming : Python,Java,HTML,CSS,JavaScript
AI/ML : Basic ML Algorithms , NLP, LLM, GEN-AI
DataBases : My SQL, MongoDB Atlas(Vector Search)
Tools : LangChain, N8N, Web frameworks,PowerBi
Concepts: RAG,Azure Cloud ,Vector Embeddings, Prompt Engineering

PROFESSIONAL EXPERIENCE

Java Full-Stack Developer Intern | Charani Infotech Pvt. Ltd.
May 2026 – Jun 2026 | Hyderabad, India
• Architected and deployed full-stack applications using React.js, Spring Boot, and RESTful microservices.
• Integrated Redux state management and modular UI components, optimizing frontend latency and reusability.

Artificial Intelligence Intern | CodeSoft
Jun 2025 – Jul 2025 | Remote
• Engineered ML/DL pipelines in Python; resolved dataset class imbalances via SMOTE to boost model precision.
• Applied NLP algorithms including tokenization, TF-IDF vectorization, and sentiment classification benchmarks.

Web Development & Designing Intern | Oasis Infobyte
Sep 2025 – Oct 2025 | Remote
• Designed high-fidelity, cross-browser responsive interfaces and dynamic web components using HTML5, CSS3, and JavaScript.

KEY PROJECTS

Autonomous Business & Stock Market AI Agent System
• Engineered a multi-agent decision support system with LangGraph and LangChain for automated market trend forecasting.
• Integrated RAG with vector embeddings and hybrid search to deliver grounded, hallucination-free financial insights.
GenAI | RAG | LangGraph | LangChain

AI-Powered News Summarization & Aggregation Engine
• Built an automated news ingestion and real-time summarization platform utilizing LLMs and NLP keyword extraction pipelines.
NLP | RAG | LLMs | React Native

AI-Enabled Hospital Management System (HMS)
MongoDB | Express.js | React.js | Node.js (MERN)
• Developed a full-stack portal with role-based access control (RBAC), automated appointment workflows, and secure synchronization.

EDUCATION & PROBLEM SOLVING

B.Tech in Artificial Intelligence & Machine Learning — R.M.D. Engineering College (Chennai)
2024 – 2028 | CGPA: 7.84

HSC (Senior Secondary) — SR-Junior College(Nellore)
2024 | 89.7%

Coding Profiles: LeetCode: 350+ Solved | SkillRack: 2,300+ Solved

CERTIFICATIONS

Oracle: Generative AI Professional, Agentic AI Foundations, OCI Foundations Associate, Database SQL Associate, Fusion AI Agent Studio Foundations Rel-1 | APEX Cloud Developer

NPTEL: Soft Skills, DBMS, Industry 4.0 & IIoT (Elite + Silver)

MongoDB: MongoDB Basics

Infosys SpringBoard: Programming in C++ | AI Foundations
